Subject: Oct. 15 Jared/Navajo meeting

Hi Martin,

As you heard from Clancy on the three regions call this past Thursday, our RA is going to be consulting with President Begaye on Oct. 15 on Gold King Mine Recovery and Monitoring along with two other topics (EPA's Clean Power Plan and our Five Year Plan for addressing abandoned uranium mines). We'll (including yours truly) be in Window Rock in person and it would be very helpful if you (or David) could participate via phone for the first 30 minutes of the 3 PM GKM part of the proposed agenda. The proposed agenda (below and attached) includes GKM related items at 10:30 and 3 Mountain time, including an item at 3:00 PM on source control measures for Gold King Mine that R8 could best speak to.

It would be great to touch base in advance of Oct. 15-- I can ask my scheduler to find a time for a conference call that will work for us all.

Thanks very much and enjoy your weekend,

Enrique

Subject: Draft Agenda

Dear Robert:

I worked with my team to put together a draft agenda for a day-long meeting in Window Rock for October 15th. I would really appreciate your feedback on the structure and content of the agenda; as well as whether the 15th is a day that could work for your team. Once we have locked in the date and agenda, I will reach out to the proposed Federal participants. I will give you a call tomorrow to follow-up. Best, Jared

DRAFT AGENDA

Navajo Nation – US EPA Senior Leadership Meeting – Window Rock

Thursday, October 15 (Proposed).

8:30

Breakfast: President Begaye and RA Blumenfeld

9:00 Full meeting starts: remarks by President, RA
